

VINAYAK C KANAVALLI

Bangalore, Karnataka, India

+91 7338440272 | vckanavalli@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Hackerrank](#) | [Portfolio](#)

Profile

Computer Science undergraduate with knowledge of Python, Django, SQL, and REST APIs. Built projects using these technologies and interested in software development.

Education

BE Computer Science and Engineering	2023–2027
SJB Institute of Technology, Bangalore	CGPA: 9.24
Class XII	2023
SPSM PU College	Score: 90.66%
Class X (ICSE)	2021
Rainbow Residential Public School	Score: 85.1%

Technical Skills

- Languages: C++, Python
- Web: HTML, CSS, JavaScript, Django, REST APIs, MySQL
- Core: OS, Computer Networks, DBMS
- Tools: Git, GitHub, VS Code

Projects

DevDuel Real-time 1v1 Competitive Coding Platform [| GitHub](#) [| Live](#) | 2026

- Built a **real-time 1v1 competitive coding platform** featuring live battles, automated code judging, ELO-based rankings, and support for **3 programming languages**.
- Leveraged **8+ technologies** including **Django, FastAPI, Redis, MySQL, Django Channels, WebSockets, JavaScript, and Monaco Editor** to deliver real-time multiplayer functionality.
- **Deployed on Railway Cloud with 24/7 availability, integrating Redis, database services, and WebSocket-based communication for low-latency user experiences.**

AI Git Intelligence Dashboard [| GitHub](#) [| Live](#) | 2026

- Built an AI-powered repository analysis platform that transformed **100+ GitHub commits** into human-readable project stories with bug prediction, risk assessment, and security insights.
- Integrated **Groq LLaMA, GitHub, REST API, Python, HTML, CSS, and JavaScript** to automate commit analysis and developer behavior tracking.
- Deployed on Vercel, enabling instant analysis of any public GitHub repository through a scalable cloud-hosted interface.

DailyX Blogging Platform [| GitHub](#) [| Live](#) | 2025

- Developed a full-stack microblogging application enabling users to create, share, and manage posts through a secure authentication system.
- Implemented core functionality using **Django, PostgreSQL, HTML, CSS, and JavaScript**, supporting user profiles, content feeds, and session management.
- Implemented REST APIs and secure CRUD operations ensuring stable backend integration and application reliability

Experience

Web Development Intern – SkillCraft

Jun 2025 – Jul 2025

- Developed four responsive websites using HTML, CSS and JavaScript focusing on clean layouts and user-friendly interfaces.
- Implemented core front-end features such as responsive design, navigation menus, forms, and interactive UI components.
- Strengthened practical web development skills by building projects from scratch and applying modern HTML, CSS, and JavaScript concepts.

Achievements

- Achieved Global Rank 8061 in a Leetcode contest
- **5 star** Problem Solving and **4 star** Python and C (HackerRank)
- Participated in **Solaris Hackathon** | 2026
- Participated in **Cognizant Technoverse Hackthon** | 2026

Certifications

- Problem Solving & Java(Basics) – HackerRank | 2026
- Intro to ML – Kaggle | 2025
- Web Dev Internship – SkillCraft | 2025
- Python (Basic) & Software Engineer Intern – HackerRank | 2025
